Table 1: Sample Table.

^a“+” means exploration is possible but optional, while “++” indicates that exploration is a key part of the story

Figure 1: Caption of this figure.

3 Sample Table

Table 1 shows a short overview of the discussed aspects. For the sake of clarity, mostly aspects which can be easily encoded as binary options are included here.

4 Sample List

- static images of industrial plants emitting pollutants and people living near them
- short video clips of people doing common activities next to a static map, highlighting their location and the concentration of carcinogens at their location
- a map where information is added and exchanged by scrolling
